

ALL SAINTS CAST

CANTEEN

Conrad Coleby I've visited a lot of hospitals and met a lot of sick young children. It's fantastic to see the good work being done through the charity for their benefit.

Celia Ireland I have a three-year-old daughter and I think it's very important to have research funds into leukaemia. I also had a sister who was a research scientist. It's so important because leukaemia such a horrible thing.

Paul Tassone Kids are the future. We're all here to help each other – we're not here for ourselves, we're all part of the one world. For anyone to give unconditionally to any charity is a great thing.

Tammy McIntosh My best friend Mardi died of cancer. I'm godmother to her daughter and I have personal reasons for supporting CanTeen.

When I was in Melbourne doing *The Flying Doctors*, I spent time doing work for CanTeen – and they're the most courageous human beings I've ever met.

No child in need should go without support. You've got to support the kids because they'd do the same for you.

To donate to CanTeen, call 1800 639 614 or visit www.canteen.org.au.
